

EXPERIMENT 5 – MARK SHEET PROCESSING SYSTEM

Aim

To create a simple cloud software application for Mark Sheet Processing using a Cloud Service Provider to demonstrate Software as a Service (SaaS).

Requirements

- Zoho Creator
- Web browser
- Internet connection

Procedure

1. Open Zoho Creator and create a new application.
2. Create a Student Mark Sheet form.
3. Add fields for Student Name and Register No.
4. Add fields for subjects and marks.
5. Add fields for Average, Percentage and Rank.
6. Add an Overall Performance field.
7. Save the form and open the live application.
8. Enter sample student marks and details.
9. Submit the mark sheet.
10. Verify the submitted student record.

Implementation

Input:

The screenshot shows the 'Student Mark Sheet' form in the Mark Sheet Processing System. The form is titled 'Student Mark Sheet' and contains the following fields:

Field	Value
Single Line	Rakshitha JD
Register No	1921260006
Subject 1	89
Subject 2	78
Subject 3	92
Subject 4	88
Subject 5	80
Average	84.6
Percentage	84.6
Rank	5
Overall Performance	Very Good

The form is part of a web application with a sidebar menu containing 'Student Mark Sheets' and 'All Student Mark Sheets'. The user is logged in as 'J.D Rakshitha'. The browser address bar shows the URL: `creatorapp.zoho.in/rakshitha/mark-sheet-processing-system/#Form:Student_Mark_Sheet`.

Output:

The screenshot shows the 'All Student Mark Sheets' report in the Mark Sheet Processing System. The report displays a table of student mark sheets. The table has the following columns:

Single Line	Register No	Subject 1	Subject 2	Subject 3	Subject 4	Subject 5	Average	Percentage	Rank	Overall Performance
Rakshitha JD	1921260006	89	78	92	88	80	84.60	84.60	5	Very Good

The report is titled 'All Student Mark Sheets' and includes a sidebar menu with 'Student Mark Sheets' and 'All Student Mark Sheets'. The user is logged in as 'J.D Rakshitha'. The browser address bar shows the URL: `creatorapp.zoho.in/rakshitha/mark-sheet-processing-system/#Report:All_Student_Mark_Sheets`. The report also includes a search bar, a filter dropdown, and a table with a single row of data. The table has 11 columns: Single Line, Register No, Subject 1, Subject 2, Subject 3, Subject 4, Subject 5, Average, Percentage, Rank, and Overall Performance. The data row shows the student's name, register number, subject marks, average, percentage, rank, and overall performance.

Result

Thus, a cloud-based Mark Sheet Processing System was created successfully using Zoho Creator and tested with sample student details and marks.
