

EXPERIMENT 7 – STUDENTS ATTENDANCE SYSTEM

Aim

To create a simple cloud software application for Students Attendance using a Cloud Service Provider to demonstrate Software as a Service (SaaS).

Requirements

- Zoho Creator
- Web browser
- Internet connection

Procedure

1. Open Zoho Creator and create a new application.
2. Create a **Student Attendance** form.
3. Add fields for Student Name and Course.
4. Add fields for Present and Absent attendance details.
5. Add an OD Request field with Yes and No options.
6. Add a Grade field.
7. Add an Attendance Percentage field.
8. Configure the Attendance Percentage to calculate automatically using:

$$\text{Attendance Percentage} = \text{Present} \div (\text{Present} + \text{Absent}) \times 100$$

9. Save the form and open the live application.
10. Enter sample student attendance details.
11. Submit the record and verify the calculated attendance percentage.

Sample Input

- Student Name: Aisha
- Course: CSE
- Present: 42
- Absent: 8
- OD Request: YES
- Grade: B

Calculation

$$\text{Attendance Percentage} = 42 \div (42 + 8) \times 100$$

$$\text{Attendance Percentage} = 84\%$$

Implementation

Input:

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/rakshitha/student-attendance-system/#Form:Student_Attendance`. The page title is "Student Attendance System". On the left, there is a sidebar with the "Student Attendance System" logo and a menu with "Student Attendances" (selected), "Student Attendance", and "All Student Attendances". The main content area is titled "Student Attendance" and contains a form with the following fields: "Student Name" (text input), "Course" (text input), "Present" (text input with "#####" placeholder), "Absent" (text input with "#####" placeholder), "OD Request" (dropdown menu with "-Select-" selected), "Grade" (dropdown menu with "-Select-" selected), and "Attendance Percentage" (text input with "#####" placeholder). A "Submit" button is located at the bottom of the form. The bottom of the browser window shows a Windows taskbar with a search bar, several application icons, and system status information: "33°C Mostly sunny", "ENG IN", and "13:31 03-10-2026".

Output:

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/rakshitha/student-attendance-system/#ReportAll_Student_Attendances`. The page title is "Student Attendance System". On the left, there is a sidebar with the "Student Attendance System" logo and a menu with "Student Attendances", "Student Attendance", and "All Student Attendances" (selected). The main content area is titled "All Student Attendances" and displays a table with the following data:

Student Name	Course	Present
Aisha	CSE	42

Below the table, there is a "Showing 1 of 1" indicator. To the right of the table, there is a "More" dropdown menu with options "Edit", "Duplicate", and "More". Below the table, there is a link to "Add a comment". The bottom of the browser window shows a Windows taskbar with a search bar, several application icons, and system status information: "33°C Mostly sunny", "ENG IN", and "13:31 03-10-2026".

Result

Thus, a cloud-based Students Attendance System was created successfully using Zoho Creator, and the attendance percentage was calculated automatically.
